

## CONTENTS

	Page
Abstract . . . . .	i
Acknowledgements . . . . .	ii
<u>CHAPTER 1</u> Introduction . . . . .	1
<u>CHAPTER 2</u> Materials and Methods . . . . .	20
<u>CHAPTER 3</u> Intravenous LD <sub>50</sub> and acute toxicity of cadmium	
I,    Introduction . . . . .	28
II.    Methods . . . . .	30
III.    Results . . . . .	
1.    The intravenous LD <sub>50</sub> of cadmium . . . . .	32
2.    Symptoms and signs . . . . .	36
IV.    Discussion . . . . .	
1.    The intravenous LD <sub>50</sub> of cadmium . . . . .	44
2.    Symptoms and signs . . . . .	52
V.    Summary . . . . .	55
<u>CHAPTER 4</u> The fate of intravenously administered cadmium	
I.    Introduction . . . . .	58
II.    Methods . . . . .	
1.    Organ distribution of cadmium (analytical) . . . . .	61
2.    Organ distribution of cadmium (autoradiography) . . . . .	63
3.    Excretion of intravenously administered cadmium . . . . .	64

	Page
<b>III. Results . . . . .</b>	
1. Organ distribution of cadmium (analytical) . . . . .	70
2. Organ distribution of cadmium (autoradiography) . . . . .	72
3. Excretion of intravenously administered cadmium . . . . .	76
<b>IV. Discussion . . . . .</b>	77
<b>V. Summary . . . . .</b>	83
 <u>CHAPTER 5</u> The fate of orally administered cadmium . . . . .	
I. Introduction . . . . .	85
II. Methods . . . . .	
1. Kinetics of intestinal absorption . . . . .	88
2. Effect of amino acids on the intestinal uptake of cadmium . . . . .	89
3. Intestinal uptake by various groups of rats - isolated gut loop . . . . .	90
4. Retention and excretion of Cd <sup>2+</sup> following oral administration . . . . .	90
5. Effects of long-term feeding of Cd <sup>2+</sup> , Cd <sup>2+</sup> + Pb <sup>2+</sup> and Pb <sup>2+</sup> . . . . .	91
 <b>III. Results</b> . . . . .	
1. Kinetics of intestinal absorption of cadmium . . . . .	92
2. Effect of amino acids . . . . .	93
3. Intestinal uptake by various groups . . . . .	93
4. Retention and excretion . . . . .	99
5. Effects of long term feeding of Cd <sup>2+</sup> ; Cd <sup>2+</sup> + Pb <sup>2+</sup> ; Pb <sup>2+</sup> . . . . .	99
 <b>IV. Discussion . . . . .</b>	104
 <b>V. Summary . . . . .</b>	108

<u>CHAPTER 6</u> Teratogenic effects of cadmium . . . . .	
I. Introduction . . . . .	110
II. Methods . . . . .	117
III. Results . . . . .	121
IV. Discussion . . . . .	125
V. Summary . . . . .	136
 <u>CHAPTER 7</u> Mechanisms of cadmium teratogenesis . . . . .	
I. Introduction . . . . .	138
II. Methods . . . . .	145
1. Placental transport of cadmium . . . . .	146
2. Placental transport of 2-deoxy-D-glucose	147
3. Placental transport and embryonic incorporation of amino acids . . . . .	147
4. Placental transport and embryonic incorporation of nucleic acid precursors . . . . .	149
5. Placental transport of $^{65}\text{Zn}^{2+}$ . . . . .	150
6. Effect of simultaneous administration of $\text{Cd}^{2+}$ and $\text{Zn}^{2+}$ on incorporation of thymidine into embryonic DNA . . . . .	151
7. Activity of thymidine kinase in the 12-day old embryos from $\text{Cd}^{2+}$ -treated rats . . . . .	151
III. Results . . . . .	
1. Placental transport of $\text{Cd}^{2+}$ . . . . .	152
2. Placental transport of 2-deoxy-D-glucose and its phosphorylation by the embryos . . . . .	152

	Page
3. Placental transport and embryonic incorporation of $^{14}\text{C}$ -leucine . . . . .	152
4. Placental transport and embryonic incorporation of nucleic acid precursors . . . . .	155
5. Placental transport of $\text{Zn}^{2+}$ . . . . .	158
6. The effect of simultaneous administration of $\text{Cd}^{2+}$ and $\text{Zn}^{2+}$ on the incorporation of thymidine into embryonic DNA . . . . .	163
7. Activity of thymidine kinase . . . . .	163
IV. Discussion . . . . .	166
V. Summary . . . . .	179
 <u>CHAPTER 8</u> The occurrence of $\text{Zn}^{2+}$ - and $\text{Cu}^{2+}$ -thionein in foetal and neonatal liver . . . . .	 183
I. Introduction . . . . .	183
II. Methods . . . . .	185
III. Results . . . . .	186
IV. Discussion . . . . .	187
V. Summary . . . . .	193
 GENERAL DISCUSSION . . . . .	 195
 APPENDICES . . . . .	 iii
